**LYCOMING AND CLINTON COUNTY KEY NEED CATEGORIES:**

As a Community Action Agency, STEP completes a community needs assessment every three-years. Through the 2018 Community Needs Assessment (CNA), community needs were documented utilizing various methodologies. The data gathered and analyzed provides the basis for all agency programming and supports community collaboration initiatives within STEP's service area. The data illustrates that social service agencies believe there are many community needs not getting adequate attention. When focus groups were asked about this, the response pinpointed the lack of capacity in social service agencies

to address areas of concern. STEP AmeriCorps members will support non-profit organizations through various interventions including resource development, systems development, training, volunteer management, and outreach.

To address the community need of enhancing the capacity of local non-profits to better fulfill their missions, STEP AmeriCorps will focus on community collaboration through connecting with local non-profit social service agencies, who have specific goals for capacity building within their agency.

The following survey is from the Community Needs Assessment (CNA) of Lycoming and Clinton County. The list outlines the key need categories which were defined through understanding previous CNA's and the areas of interest that were mutually important to STEP, River Valley Health and Dental and the broader community.
